Abena Corletey

Web Developer - JS | REACT | Front-End Specialist | UI/UX
Designer

Accra, Greater Accra Region, Ghana

Summary

A Web Developer with over 2 years of experience, I specialize in crafting visually appealing and user-friendly websites using cutting-edge technologies. With a strong foundation in HTML, CSS, JavaScript, WordPress, and MySQL, I excel in transforming design concepts into functional, responsive, and accessible web applications.

Highlights of my experience include developing the official Olympic website for the African Universities Olympics, resulting in a 25% surge in online visitors and an enhanced user experience. I have also successfully launched mobile applications, leveraging frameworks like Flutter and PHP, which boosted user engagement and retention by 40%.

My expertise extends beyond coding to encompass graphic design principles and tools like Adobe Creative Suite. I have a keen eye for visual composition, layout design, and creating captivating digital experiences that resonate with audiences. Through my previous roles, I have contributed to projects that led to significant increases in website traffic, user engagement, and overall satisfaction.

With a passion for continuous learning, I stay up-to-date with the latest web development trends, best practices, and emerging technologies. I thrive in collaborative environments, working closely with cross-functional teams to deliver high-quality solutions that meet project requirements and exceed stakeholder expectations.

With strong problem-solving skills and attention to detail, I am eager to contribute my expertise to an innovative organization that values excellence in web development and design.

Experience

MEST Africa

Web Developer

May 2024 - Present (3 months)
